Dear Friends,

On behalf of the Steering Committee, we would like to welcome you to the 1995 Planners Network National Conference. The East St. Louis Host Committee and the Conference Planning Committee have worked hard to develop an exciting program and interactive format for this year's Conference. The ten workshops and plenary sessions cover a broad range of issues confronting contemporary citizen activists and design professionals. We are confident that you will be stimulated by the presentations and discussions featured in these sessions.

The Steering Committee appreciates the support which the University of Illinois at Urbana-Champaign, University of Illinois at Chicago, State Community College, City of East St. Louis, St. Louis Chapter of the APA, St. Louis Chapter of the AIA, Winstanley/Industry Park Neighborhood Organization, Student Planners Organization (UIUC) and the United Church of Christ have provided for this year's event. This Conference would not have been possible to organize without their support, encouragement and involvement. We especially wish to thank Mayor Gordon Bush and his staff for their cooperation.

The results of the 1994 Congressional elections and the recent activities of the Speaker of the House highlight the importance of progressive citizen activists and urban planners working together to promote social policies that address the serious social injustices and environmental threats confronting our cities. We hope this year's Conference will lead to a higher level of political activity on the part of PN members to promote more equitable solutions to the problems of our nation's urban and rural areas.

We welcome your active participation in all of the Conferences charettes, workshops, plenaries and cultural activities. We look forward to hearing your ideas regarding how we can strengthen PN as a progressive, change-oriented organization.

Sincerely,

Ann Forsyth  
Co-chair, PN Steering Committee

Ken Reardon  
Co-chair, PN Steering Committee

## THE PLANNERS NETWORK - WHAT IS IT?

The Planners Network is an association of professionals, activists, academics, and students who are involved in physical, social, economic and environmental planning in urban and rural areas, and who support fundamental change in our political and economic system.

We believe that planning should be a tool for allocating resources and developing the environment in order to eliminate the great inequalities of wealth and power in our society, rather than to maintain and justify the status quo. This includes in particular racial injustice and discrimination by gender and sexual orientation. We believe that planning should be used to assure adequate food, clothing, shelter, health care, jobs, safe working conditions and a healthful environment. We advocate public responsibility for meeting these needs, because the private market has proven itself incapable of achieving these goals.

We seek to be an effective political and social force working with other progressive organizations to inform public opinion and public policy and to provide assistance to those seeking to understand, control and change the structural forces affecting their lives.

The Planners Network was established in 1975 as a communications vehicle for progressive planners to keep in touch with one another, share ideas and experiences, and discuss how their political values relate to their work and lives. The bi-monthly newsletter contains notes and information sent in by members, and information about other publications, conferences, jobs and resources. In 1981, a formal organization was created with a Steering Committee.

There are over 800 members in the United States and dozens in other countries. National Planners Network Conferences were held in 1979, 1981, 1986, 1994 and 1995. PN Sessions are also organized at conferences of the American Planning Association and Association of Collegiate Schools of Planning. In New York City, Network members present a forum series, and Network members in other cities periodically organize local events.

Annual financial contributions are voluntary, but are needed to cover operating expenses connected to the newsletter and annual conferences. The Steering Committee recommends the following minimums for Network members: \$15 for those with incomes under \$25,000, students and unemployed; \$25 for those with incomes between \$25,000 and \$50,000; and \$45 for those earning over \$50,000. Contributions should be sent to: Planners Network, Pratt GCPB DeKalb Avenue, Brooklyn, NY 11205.

# IN MEMORY OF ROBERT MIER

Planners Network lost one of its most cherished and respected members on February 5, 1995 when Robert Mier died of non-Hodgkin's lymphoma, a result of exposure to Agent Orange during his Navy service in Vietnam. Rob, who was born and raised in St. Louis, received his B.S. in geology and civil engineering from the University of Notre Dame in 1965. He served as an officer in the United States Navy from 1965 to 1969 where he was decorated for his service in Vietnam. Rob left a promising career in the Navy when he resigned his commission because of his opposition to the war. He received his Master's in Regional Planning and his Ph.D. in City and Regional Planning at Cornell University in 1974 and joined the faculty of the University of Illinois at Chicago's School of Urban Planning and Policy Analysis. Rob was the founding director of UIC's Center for Urban Economic Development, one of the nation's most well-respected urban research and technical assistance centers. Rob served the City of Chicago from 1983 to 1989 during the tenures of Mayors Harold Washington and Eugene Sawyer as the Commissioner of Economic Development and Assistant to the Mayor for Development. Rob was the architect and chief implementor of Chicago's highly regarded 1984 Development Plan as well as the author of more than eighty scholarly publications and co-author of two books. Rob is survived by his wife, Joan Fitzgerald, his sons Brian and Brendan Mier, his daughters, Lian Mier, Shelley Fitzgerald, and Nell Newton, of Washington, D.C. and his brother Fred Boehm of St. Louis, Missouri. The family has asked that in lieu of flowers, donations be made to a scholarship fund set up in his name. Checks may be sent to the UIC Scholarship Association, c/o Center for Urban Economic Development, 400 S. Peoria, Chicago, IL 60607.

Planners Network will honor Rob on Sunday, May 21st by holding a three-hour town meeting to discuss crafting a progressive response to the "Contract with America." Rob was well known for his penchant for chairing such participatory political discussions and it seems fitting that Planners Network remember him at our Convention in this way!
