HELP!!! $SSS

If we do not have in hand enough money to get out Issue #79 in December, we will wait until it is in hand before we publish. And if we never accumulate that much money, we'll just fold up. That simple.

We've never missed an issue yet. Some two-thirds of you are, as we've pointed out several times, free-loaders. The message, we hope, is clear: You put up, or we shut up. — C.H.

☐ HOUSING BOOKS: We've gotten several orders for Housing Issues of the 1990s, the new Praeger collection co-edited by Sara Rosenberry and Chester Hartman that has lots of good original pieces by PNers (Emily Achtenberg, Rachel Bratt, Peter Marcuse, Cushing Dolbeare, Peter Dreier, Ann Meyerson, Dennis Keating, Richard Appelbaum and the IPS Working Group on Housing, Michael Stone). It's $45 (postage included) if ordered through PN (list price: $55).

Also, we still have our discount arrangement with Temple University Press for Critical Perspectives on Housing, the 1986 collection co-edited by Rachel Bratt, Chester Hartman, and Ann Meyerson. This also is chock full of PNers' works, and the PN discount price ($13.46) is an even better deal now that the list price has gone up to $19.95.

Orders for both books should come to PN directly, with a check made out to Planners Network.

☐ PN/HOUSING NOW: Despite our penury, PN made a $100 contribution to the Housing Now! October 7 march on Washington (of which we were an official sponsor). It's exceedingly rare that we do such things, but this was important.

PN Chair Chester Hartman also served on the Executive Board for the march.

The Planners Network

The Planners Network is an association of professionals, activists, academics, and students involved in physical, social, economic, and environmental planning in urban and rural areas, who promote fundamental change in our political and economic system.

We believe that planning should be a tool for allocating resources and developing the environment to eliminate the great inequalities of wealth and power in our society, rather than to maintain and justify the status quo. We believe that planning should be used to assure adequate food, clothing, shelter, medical care, jobs, safe working conditions, and a healthful environment. We advocate public responsibility for meeting these needs, because the private market has proven incapable of doing so.

We oppose the economic structure of our society, which values profit and property rights over human rights and needs. This system perpetuates the inequalities of class, race, sex and age which distort human relationships and limit the potential for a decent quality of life. We advocate a shift in current national budgetary priorities to favor human services, social production and environmental protection over military and other nonproductive expenditures.

We seek to be an effective political and social force, working with other progressive organizations to inform public opinion and public policy and to provide assistance to those seeking to understand, control, and change the forces which affect their lives.

The Planners Network Newsletter is published six times a year as the principal means of communication among Network members. Annual financial contributions are voluntary, but we need funds for operating expenses. The Steering Committee has recommended the following amounts as minimums for Network members: $15 for students and unemployed; graduated payments for the employed of $25 plus $1 for each $1,000 earned above $10,000.

Members of the Steering Committee: Chester Hartman, DC; Chair; Emily Achtenberg, Boston; Eve Bach, Berkeley; Bob Beaugrand, New Brunswick, NJ; Donna Dyer, Durham, NC; William Goldsmith, Ithaca; Charles Hoch, Chicago; Joochul Kim, Tempe; Judy Kossy, Buffalo; Jacqueline Leavitt, LA; Peter Marcuse, NYC; Jackie Pope, NYC; Alan Rabinowitz, Seattle; Tony Schuman, NYC; Andree Tremoulet, Pittsfield.

Newsletter Editor: Prentice Bowsher.

**HOMELESSNESS CURRICULUM: A Housing Now! teaching guide, "Housing and Homelessness: A Teaching Guide," was completed in record time, and distributed (with National Education Association help) all over the country. Ten thousand copies were grabbed up in the weeks before the October 7 march. Others interested in a copy may try Mary Ellen Homb's at the National Coalition for the Homeless, 1439 Rhode Island Ave. N.W., Wash. DC 20006. PN has only a single copy (with a pin and loan you).

In response to our call for materials (PN 87-6, p. 2), we got a copy from Letty Shapiro (801 E. Capital St. S.E., Wash. DC 20003) an elementary school counselor, prepared for the DC public schools in 1987, an illustrated story on homelessness designed for young children (K-3), written by Marc and Marilyn Weiss (Real Estate Management Program, American University, D.C. 20016). PNR REQUEST: From Networker Joe Fugain (Dept. of Sociology, Univ. of Texas, Austin, TX 78712, 512-471-1222). I am working on a research project that involves interviewing Black middle-class professionals and managers (and other "white-collar" workers) on the discrimination they face in jobs, housing, politics, and intra-class dynamics. This research grant only covers interviews in Southwestern cities, so I would welcome assistance from anyone outside the Southwest who would be willing to help secure a few interviews with Black middle-class people in your area. My first interviews indicate that the Black middle-class faces massive discrimination in the United States, media and academic arguments about the "declining significance of race" notwithstanding.

Fannie Mae Awards: Fannie Mae (3000 Wisconsin Ave. N.W., Wash. DC 20016) has announced competition for its 1999 Awards of Excellence for the Production of Low-Income Housing, which will make grants of $25,000 each to six nonprofit groups. Winners will be announced in April 1999.

DC 20007); and supported full funding for the McKinsey Homeless Assistance Act (organized by the National Coalition for the Homeless, 1439 Rhode Island Ave. N.W., Wash. DC 20005). If your organization would like to get on a list to receive sign-on letters that PNR is asked to join, let us know; and we'll pass your name on to the various circulating/organizers of these projects.

Housing v. Defense/Boston: The Boston Redevelopment Authority has released a report, From a Military to a Housing Build-Up, which shows a six-percent shift from federal military spending to housing would generate an additional $153 million a year in housing funds for the city. Copies: PNR and co-author Peter Dreier, Director of Housing, BRA, City Hall #912, Boston, MA 02201.

Housing Articles: Two recently-published articles by PNR members Peter Dreier and John Atlas are available from the National Housing Institute, 439 Main St., Orange, NJ 07050. In "Lessons of the HUD Scandal: Communities, Not Carpetbaggers," Dreier in the August 21 Nation describes the HUD scandal as a product of the huge profits available from federal housing programs, calls for a new direction in federal housing policy and examines the success of Canada's system of nonprofit housing. In "Grassroots Strategies for the Housing Crisis: A National Agenda," Dreier and Atlas in a recent Social Policy examine the state of grassroots organizing on the housing issue, and propose new strategies.

☐ DECEMBER PN DEADLINE: The arrival deadline for copy for the December Planners Network is Monday, December 4. We look forward to hearing from as many Networkers as possible. As always, our thanks to those who type those notes. It's a great help in production, and it reduces our chances of misreading what you write.  

Arrival deadline for PN #79 copy: Monday, December 4.

☐ TALK UP PN: Please don't be shy about sharing news of the Planners Network with others. Let them know about us. Probably the best outreach we have is when you educate and recruit your friends, co-workers, acquaintances, and others. We have a good, one-page introductory sheet, "The Planners Network—What It Is," which we can send you in any quantity you wish. "What It Is" includes a statement of our principles, a brief organizational history, a list of Steering Committee members (who also double as regional contacts) and the method of calculating contributions. If you wish, you can also send us a list of prospective Networkers, and we will contact them for you.

☐ MOVING? TELL PN: When you move, please let us know directly. If our (non-forwardable) Third Class newsletter is returned to us, with your new address, which is the way we usually learn of PNers' moves (we mark the newsletter "Return & Forwarding Postage Guaranteed"), it costs us $6/month to send a thoughtful change-of-address card to us on the other hand will cost you just 15¢.

☐ PERSONAL UPDATES: There are a number of short communications in this issue from Network members, letting us know about new jobs, projects, what's happening in their lives, etc. We encourage this. Sharing this kind of "where-I'm-at" information helps create a sense of community, provide contact, generate support, and generally act like the network we strive to be.

☐ ADDRESS CHANGES: Many Networkers seem to move around a lot. When you do, please let us have your old address and zip code as well as your new ones. Names (like luggage) sometimes are identical, and we want to be sure we change the right address card. Moreover, our cards are maintained in zip code order, so if you change your zip code (even a little), we won't know what post office wants the mail); so if we don't have your old zip code, we can't find your old card, and we wind up paying postage for phantom recipients. So please help out and send both old and new addresses.

☐ "CALL" STATEMENT: We have a one-page, broadcast version of the "Call for Social Responsibility in the Planning and Building Profession," which appeared in PN #49. Copies are available on request. It makes a good addition to "The Planners Network—What It Is" recruiting members.

**HOUSING MARKETS AND POLICIES UNDER FISCAL AUSTERITY**

Edited by Willem van Vliet--

This collection of essays provides in-depth analysis of the implications of a changing political climate and scarce fiscal resources for housing markets and policies. In this context, several chapters offer a comparative analysis of mortgage markets in the United States and Great Britain, as well as of housing provision and allowances in a number of Western European countries. Additional chapters detail political and socioeconomic aspects of current housing issues in specific nations, including the United States, Canada, Australia, Britain, the Netherlands, and Poland. Also, new developments in housing tenure as well as the processes of decertification and privatization are discussed. Many of the contributions also examine the antecedents and significance of the implications of these developments.
