

PLANNERS NETWORK

#32 — February 17, 1982

1901 QUE STREET, NW

WASHINGTON, DC 20009

(202) 234-9382

Well, here's the new 1982 Planners Network Roster, some 1450 of you. We're sorry more of you didn't send in mini-biosketches, as the roster makes good reading all by itself. Where we had nothing new from you, we used your description from the last roster, unless it was clearly out of date. If there are any serious errors, let us know, and we'll try to make corrections. Use it well. (We omitted the state breakdown of previous editions; we now have everyone in zipcode order on our address cards, and if there is need to have any kind of sublist by geographic area we can do this easily by machine.)

Linda Hollis deserves the Networker of the Month (if not year) Award, for having put it together single-handedly.

One item on the roster form seemed to get enough people annoyed that it warrants some explanation, and that's the request for demographic information—age, sex, and race. Many of you were particularly ticked off by the race inquiry, with comments ranging from the mildly hostile ("human," "100 yard," "you've got to be kidding," etc.) all the way to really angry jottings.

Perhaps we should have been clearer as to why we were asking this. It was not material we intended to print in the roster itself, but was asked simply to give us a better sense of who is in the Network. Planners Network is a formation that connects primarily by mail, with little actual personal contact, beyond local meetings and the one national convention we had—events which only a small portion of Network members attend. We know who we are geographically, and to the extent names are clear, sexually, but the roster form was designed to get a better sense of whom we work for, what kind of work we do, and our basic age/sex/race characteristics.

This information can help in developing projects and can help in our fundraising efforts. And it also is useful in deciding what kind of conscious outreach and internal building we have to do. That's particularly true on the race question, which got the most bad notices. We haven't a clue as to how many Black, Latino, Asian people are in the Network. At last May's national convention and in other forums, there have been numerous expressions of the need to have more minority group presence and activity in the Network, and one of the projects approved at the national convention (#19, Affirmative Action) specifically was designed to move us in that direction. Having some information (minimal as it is, since only a portion of members returned forms, and we have no idea whether they are representative of the group as a whole) and contacts permits us to move toward greater racial diversity. Asking questions of this sort is obviously a sensitive issue in our society—particularly when its not made completely clear how the information is being used—but, brickbats aside, we probably were not mistaken to ask for this.

ON \$\$\$\$ We're in pretty good shape for the time being, at least for purposes of putting out the Newsletter (although this one, with the Roster, cost some \$2000, about half of what we have in the bank), but the number and amounts of financial contributions still is disappointing. Less than half the people

getting the Newsletter have ever contributed money (yet we know you non-contributors use and want the Newsletter, because we hear from you with information requests, address changes, material for inclusion in the Newsletter.) And the modal contribution is still \$10, which doesn't even cover a year's typesetting/ printing/ mailing costs pro-rated—let alone labor costs, which all are unpaid. Many of you, we're delighted to say, are sending in amounts like \$51, \$33, \$23—indicating you really are taking the suggested contribution formula seriously. For reminders: \$10 for unemployed, including students; for the employed, \$20 + \$1 for every \$1000 of income over \$10,000. (Andy Schiffin writes: "I think there ought to be a membership category for single breadwinners in the traditional American family with children under five." People of course should make whatever adjustments they think are fair in that formula to take account of their own special circumstances.) For convenience, we're putting a coupon right here—so you can send some money in, even if you recently contributed.

KEEP ON LOOKING THROUGH THOSE LISTS OF RETURNED MAIL printed at the end of the Newsletter. We re-locate many people that way, and the more of you who help out, the fewer people we inadvertently lose. (The post office's mail forwarding practices for third-class mail are fourth- or fifth-class.) If you suddenly start receiving the Newsletter after a long gap, it may be because some Samaritan has told us of your whereabouts.

A GENERAL PLEA. TO "THINK NETWORK" MORE—that is, don't just be a consumer, be a provider as well of Newsletter information. What things are you doing, what readings have you come across, what upcoming job openings have you heard of, what do you know about that you think would be of interest to this mini-community you're part of? Why don't you take a minute to think about this and drop a short note with material for Newsletter #33.

Dear Planners Network:

Yes, you're right. I haven't been pulling my weight, Network-wise. Now that you've put my name in print in the Roster I just received, I'd like to express my appreciation with the enclosed check for \$ _____. Keep up the good work!

REGARDING OUR REQUEST FOR RESPONSES FROM NETWORKERS ABOUT RESPONSES FROM NETWORKERS: Nathan Weber wrote, "Each time I listed an item, for example a new publication, I have received from 10 to 40 requests, plus a few personal letters asking for more specific information." And from David Olsen: "Just a note to thank you for including a job announcement for the SF Work Improvement Project in the last Newsletter. . . . That listing turned up at least 8 applicants for us, including a few really good ones."

A NOTE FROM THE CHAIR, WEARING BOTH HIS NETWORK AND INST. FOR POLICY STUDIES HATS: I would like to explore ways in which Network members could make use of the resources IPS has available. Several things immediately suggest themselves:

- 1) Use of the IPS seminar room (capacity ca. 50) and outreach facilities for presentations by Network members passing through town. If you would like to present your work to an invited audience at a daytime or evening session, give us some details and let's try to set something up.
- 2) Use of these facilities for issues seminars and forums that Network members want to organize or suggest.
- 3) Research and organizing projects that might be sponsored here, and for which funding support could be facilitated by IPS sponsorship.
- 4) Coming to IPS yourself as a Guest Fellow (or suggesting people who might come here—for a few months, semester, year, on sabbaticals, with book advances, or whatever form of support you have.)
- 5) Anything else you might think of. It's a resource we ought to be more conscious of in our work.

SOME REPORTS FROM THE REGIONS—SEATTLE, NEW YORK CITY, UPSTATE N.Y., BOSTON, AND D.C.

SEATTLE (from Steering Comm. member Alan Rabinowitz, 3400 E. Laurelhurst Dr., Seattle, 98105, 206/525-7941):

The entire fall of 1981 for most of the people in Washington was involved with various consequences of a shortfall in State revenues (a billion dollars more or less depending on which politician one talked to or which newspaper one read on which particular day, to which situation we can add the enlarging deficits being run up by the Washington Public Power Supply System, in the order of mega-billions of dollars for unwanted nuclear power plants). These two conditions were wreaking havoc with all the social services and municipal functions and state-funded colleges and universities. It was a miserable scene, graced by an ungraceful special session of the legislature. The battling for survival will continue as the regular legislative session opens. Behind the State's revenue shortfall, of course, is the low level of the lumber-into-housing business, the weakening of foreign trade through the port, and the severe cutbacks in federal assistance of practically every sort. In the process, Planners Networkers have been busy, variously involved in (a) jobhunting, (b) cooperating in a number of citizen-based campaigns . . . against WPPSS, against the City of Seattle's perverse downtown development proposals, for more low and lower-income housing programs, etc.

In the middle of these hassles, some progress has been made in getting the Network operational in the Northwest. The Seattle area steering committee consists of the following:

Vivian Kahn, Kahn-Mortimer Assoc., 4906 Rainier Ave. S., Seattle 98118 (206) 723-0456

Ann Bernstein, 701 35th Ave., Seattle 98122 (206) 329-7791
Judy Stoloff, Cornerstone Development Co., 51 University, Seattle 98101 (206) 623-9374
Gary Clark, 922 N. 67th, Seattle 98103
Peter Millman, Dept. of Urban Planning, University of Washington, Seattle 98195
Alan Rabinowitz, 3400 E. Laurelhurst Dr., Seattle 98105 (206) 525-7941

Mary Vogel is undertaking to organize the Oregon network. She can be reached at P.O. Box 11142, Eugene 97440 (503—683-1613/work or 503—343-9997/home)

A student Network meeting on November 10 was chaired by Peter Millman and addressed by Judy Stoloff. It is a beginning, however confusing. I cannot gauge how many students at the moment are really either adopting the PN principles or interested in a student Network as differentiated from PN generally, but time will tell. Incidentally, one activity that will involve much effort by planners in the Seattle area in the next year or so is the annual meeting of the American Planning Association, set for meeting in Seattle in the Spring of 1983. We will have to think hereafter of what role PN will play in or around those proceedings.

The Seattle area steering committee has had several meetings to discuss what kinds of activities we can undertake. In late January we plan to have a general meeting in the back room of a local coffee house to start things off (various ideas for earlier meetings with some more or less imposing speaker having been aborted). So far as we know, none of the people here are involved in any of the PN projects. We'll go through the list—and may possibly articulate a project of our own. In any case, we'll keep you up to date.

NEW YORK (from Steering Comm. member Tony Schuman, 56 W. 22nd St., NYC 10010, 212/691-9708):

At an open meeting of the New York Area Planners Network last fall, ten people volunteered to serve on a Steering Committee to help launch a local chapter: Victor Bach, Laura Blair, Steve Boss, Amy Cohen, Bruce Dale, Charles Goodmacher, Jeffrey Hochman, Dana Hughes, Nabil Kassatly, and Tony Schuman. The charge to the new local SC is to prepare a list of projects for Network involvement which would form the basis for an organizing meeting of the local chapter in the early spring. The first SC meeting identified four principal areas of concern for the local Network: technical assistance to community based groups; support for progressive public officials; political support activities; and our own organization and workplace issues. It was decided at the meeting that the Network/Forum series would remain as an activity organized by the Network for a wider audience, and that a separate organizational structure would be developed for Network meetings.

More concrete proposals were discussed at a second SC meeting, based on follow-through contacts by the SC members. A number of the groups and individuals approached were enthusiastic about input from the Network, including Local Development Corporations (around the issue of a special assessment tax); Council member Ruth Messinger (whose assistant proposed a list of seven possible research projects); Brad Smith, the vice-president of Local 375, which represents planners and technicians in NYC government agencies; radio station WBAI; and *City Limits*, a New York magazine representing the neighborhood housing and development movement. The SC also endorsed a proposal by cable Channel L to videotape the four sessions of

Network/Forum this spring related to issues of ownership and control of land in N.Y. On January 22, Channel L taped Bob Fitch's talk on "How Urban Land Became Capital." The intent is to edit the four sessions down into a one or 1½ hour show, adding linking dialogue and visual material. If the tape is successful, it will be available for Network use in other cities, as well as local screening on cable.

The SC will meet once more to prepare for an open Network meeting to be held on a Saturday in March. In addition to recruiting Network members to work on projects proposed by the SC (and others that may be put forward at that meeting), the meeting will also address general organizational concerns: establishing a meeting format and schedule for future work; preparing a resource list of Network members available to speak on various topics at forums, schools, or on radio; and a phone tree to enable rapid communication and mobilization for political support activities, such as the Columbia 6 or the case of Peggy Moberg, a planner dismissed by the Planning Department without due process in a dispute over her report on zoning in City Island.

The first event organized by the new SC was a Network holiday party held on December 18 under Network/Forum auspices. A last minute mailing and phone call campaign brought over 60 people together over wine and cheese to celebrate our new effort, greet old friends, make new ones, and reaffirm our belief that there is an important role for progressive planners within the chaos of our unplanned economy.

UPSTATE N.Y. (from Paula Ford, 307 Hudson Ave., Albany 12210):

At this stage, I would say we are in a pre-chapter phase (I hope). I have, however, appropriated the PN title for our newsletter and letterhead, since I find that I am conducting enough correspondence to need some kind of identification.

Our plans, formulated by a small group that met in Ithaca last May, are to hold at least two more workshops: one in Utica in late February and one in April or May in Rochester or Buffalo. If after that time, there seems to be sufficient interest, we will form a local chapter. At the moment, I am not too optimistic. Organizing this kind of primary group (as opposed to a coalition of local groups, for example) across the entire upstate area is not easy. The territory is large, the population centers dispersed, communication difficult and local issues varied. Regional organizations probably make more sense, but I doubt that there would be enough members to support regional level groups. (Which is not to say that there is no audience for progressive planning ideas.) I still personally feel the need for some kind of upstate Network and am sure other people do, too.

BOSTON (from Steering Comm. member Emily Achtenberg, 47 Halifax St., Jamaica Plain 02130, 617/524-3982):

35 Boston PN members attended a forum/discussion on February 4 entitled "Community Housing Development: Prospects for the 80's." Presentations by local community-based housing sponsors and community activists focused on recent experiences with joint-venture syndication, turnkey public housing development, and Section 8 moderate rehabilitation. A lively discussion highlighted the dilemmas currently facing community-based development groups with the diminution of financing and subsidy resources, and the need to maintain a class perspective by forming political alliances with activist groups.

THE WASHINGTON AREA NETWORK WILL BE MEETING ON THURSDAY EVENING, FEB. 25, to discuss, among other things, how the Network can provide technical assistance to the Natl. Low Income Housing Coalition (Project #16 approved at last May's national conference). Kate Crawford of the Coalition staff will be there to discuss this with Network members. The meeting will begin at 7:30, and is being held at the Center for Community Change, 1000 Wisconsin in Georgetown, between M and the Canal. Parking is not terrific; the #30, 32 and 36 buses serve the area. Phone Joel Friedman, 755-7335, 462-5719, or Judy Kossy, 265-8238 for more information. It's a good chance to meet other DC Area Networkers—call them too if you can't come but want to be notified of upcoming regional meetings.

COMMUNITY ECONOMIC DEVELOPMENT AND THE NEW REALITIES: Can the CDEBOs Stay in the Game and Win? is the theme of a 3-day conference, Feb. 21-23, sponsored by the Inst. for Econ. Dev. and the Mexican-American Unity Council, at the Hotel St. Anthony in San Antonio. Information from Linda Taylor at IED, 734 15th St. NW, #200, Wash., DC 20005, 202/466-7890.

A MANAGEMENT DEVELOPMENT WORKSHOP SERIES FOR BOARD MEMBERS AND STAFF OF NON-PROFITS is being run by the Support Center (1709 New Hampshire Ave. NW, Wash., DC 20009, 202/232-0100). The series began in early January and runs through the end of February. They're generally half-day sessions, with a \$20-25 fee, on everything from basic bookkeeping, how to get media attention, how to obtain and maintain tax-exempt status, computer power, lobbying, financial planning and budgeting, time management, long-range planning, effective public speaking, etc. (Network members who have used these workshops should write in and let us know their evaluation of how useful these training sessions are.)

"THE IMPACT OF U.S. POLICY ON ECONOMIC DEVELOPMENT IN THIRD WORLD COUNTRIES" is a seminar at the SUNY-Old Westbury (Long Island) campus, March 25-26. Further information from Dr. Sachi Dastidar, Urban Studies Prog. and Third World Seminar Coordinator, SUNY, Old Westbury, NY 11568, 516/876-3271.

"THE NATIONAL POLICY WORKSHOP ON SHARED HOUSING" will be held March 17-18 at the Woodrow Wilson Ctr., Princeton Univ. Its goals are to exchange information on concepts and practices of shared living; to examine the issues and constraints to its use; and to develop policy recommendations and strategies. Information from Dennis Day-Lower, Shared Housing Resource Ctr., 6344 Greene St., Philadelphia 19144, 215/848-1220.

EX-CONFERENCES

"ACCESSIBLE/ADAPTABLE HOUSING IN SAN FRANCISCO," held Jan. 28, sponsored by Independent Housing Services (25 Taylor Mezzanine, SF 94102). Subjects included: Demographics of disabled citizens of San Francisco; Economic impact of housing costs on low and moderate income level clients; Formulation of the new Housing Element of the City's Master Plan, including the needs of the disabled; Relationship of specific disabilities to spatial functions; Environmental Design concepts and codes, both existing and proposed; Strategies for adaptable/accessible housing in San Francisco; Specific political actions, past, present and future; Available technical and financial assistance. San Francisco also has a new City Deferred Payment Loan Program—low-interest rehab loans for accessibility modifications. Further information from IHS.

A WESTERN REGIONAL CONF. sponsored by the Union for Radical Political Economics and the W. Coast Assn. of Marxist Historians was held Feb. 12-14 at the UCLA School of Arch. & Planning. Sessions were held on the effects of Reaganism on race and class, reproductive rights, workplace hazards, urban riots, plant closures, border migration, taxes and Prop. 13, reindustrialization, deregulation, and a host of other topics. Further information from Dorene Isenberg, 3120 Terrace Dr., Riverside, CA 92507.

COLUMBIA UNIVERSITY UPDATE: Things still are very much in flux at the Division of Urban Planning, regarding the controversy over termination notices sent to six junior faculty members (most of whom are Network members), reported in Newsletter #30. The group filed a formal grievance procedure in early December to the University Senate Comm. on Faculty Affairs and Academic Freedom, which has appointed a subcommittee to investigate and report back to the Senate. The aims continue to be: rescinding all six termination letters, ensuring faculty sovereignty over curriculum, developing a rational faculty review process, and procuring longer (than one-year) contracts.

Project Progress

THE PLANNERS NETWORK STUDENT RESEARCH EXCHANGE PROJECT has just gotten underway, under the direction of Nan Laurence (288 Harvard St., Cambridge, MA 02139, 617/492-2597). Students working on projects for which they would like some feedback will be sending in titles and descriptions; others who want information or a bibliography will send in requests; and finished papers can be made available at cost from the authors. Nan is looking for contacts at each school as well, and those of you who indicated on their roster forms an interest in this project will be hearing from her directly. Requests and information will appear regularly in the Newsletter. Here's what's come in so far:

Information Available

1. "Limited Equity Co-ops" (Biblio. included)
John Simonds, 400 W. 119th St., #14 C, NYC 10027 (212) 864-7730 (Columbia)

REPORT ON COMMUNITY-LABOR COALITIONS PROJECT (from Pierre Clavel, Dept. City & Reg. Plng., Cornell, Ithaca, NY 14853): Dennis Brunn is compiling a *Directory of Community Labor Coalitions*. Persons with information on such groups and contact persons should please offer names and addresses to him so he can begin getting in touch with them. His address: Dennis Brunn, Exec. Dir., Urban Studies and Comm. Services Ctr. of La Salle College, 5501 Wister St., Philadelphia, PA 19144; 215/951-1187 (work), 242-2099 (home).

There is a lot of interest in the Case Study and Document-Gathering Project. I am in touch with 12-15 persons who say they are putting together some sort of thing, or are thinking of it, or might be prodded into thinking about it. We put out some ideas in the last Newsletter about this, and I'd like to hear from more people about cases and documents. Once we have some of these in hand we will be able to advertise, in this Newsletter, (1) a bibliography of cases and (2) cases and documents available at cost. We are a few months away from this at present.

NATIONAL TENANTS UNION POLITICAL EDUCATION AND SUPPORT PROJECT (from Bill Allen, PO Box 5865, Santa Monica, CA 90405):

At the January meeting of the NTU Steering Committee, a work plan was put forth for the further development of a Draft Platform.

The work plan would result in a Draft Platform to be distributed to the member organizations prior to the Summer '82 Conference. Planners Network support for aspects of this Draft Platform development was welcomed.

The Platform Committee will be surveying the NUT member organizations in the next several months for response and input in nine issue areas. The work plan calls for the responses to be coordinated and reviewed by a "drafter." The "drafter" can also solicit response from individuals with expertise in the issue area. Additionally the "drafter" would write the Draft in that specific area, which would then be circulated to the member groups prior to the Conference. Workshops will be held on the Draft Platform and revisions made for submission to a Plenary session on the last day of the Conference.

Planners Network could support this effort in one of two ways: 1) to volunteer as a "drafter"; or 2) to submit proposed "planks" within the nine areas. The areas which seem most applicable to Networkers backgrounds are the following:

Area 2: Preserving Affordable Housing

Area 4: Fighting Displacement

Area 7: Building and Rebuilding Housing Outside the Private Sector

Area 8: Encouraging Progressive Urban Development Policies

If any Networkers want to contribute to this effort and want more specific information they should contact Peter

Constanini, Seattle Tenants Union, 411 14th St., Seattle, WA 98102.

DOES ANYONE HAVE ANY IDEAS ON A NETWORK PROJECT (OR PROJECTS) RELATING TO THE DANGERS OF NUCLEAR WAR? It seems odd that we are not doing anything relating to this most basic issue, given the high probability that such a war may happen, which dwarfs almost any other consideration or political work we are doing. Are there projects we can do on our own, or coalitions we should be linking up with? Please, some ideas and leadership.

HOUSING VOUCHER STUDY: The Wash. Network has recently initiated a study to determine the probable impacts of a proposed substitution of a housing voucher program for the present Sec. 8 program. The study will be similar to that conducted by Networkers Frank DeGiovanni and Mary Brooks in NY. They are trying to encourage other Network groups to conduct similar studies in their areas. If a series of such studies were completed by the late Spring or early Summer, they could form the basis for testimony when the voucher program is subjected to Congressional hearings. Each study would require access to local Sec. 8 data, analysis of Annual Housing Survey data (they could probably supply this information), a fair amount of mundane leg-work and data collection, and the ability to conduct minimal statistical analysis. For more information, contact Joel Friedman, 1864 Wyoming NW, Wash. DC 20009, 202/755-7335, 462-5719.

CORNELL PROGRESSIVE PLANNING SUMMER PROGRAM: June 7-July 16, 1982. Cornell's Dept. of City & Reg. Planning will offer the 3rd annual Progressive Planning Summer Program. Two sessions of three-week academic courses, offering four credits each, begin on June 7 and on June 28. Short (several day) institutes, offered primarily for practitioners, will take place during the same period. Tuition charged. Some aid available. For more information, write Sander Kelman, Dept. City & Reg. Planning, 106 W. Sibley, Cornell, Ithaca, NY 14853, 607/256-6212.

Ed. note: We have no idea how many Network members belong (or once belonged) to the Amer. Planning Assn., the newer Amer. Inst. of Certified Planners, or their previous incarnations, the Amer. Inst. of Planners and Amer. Soc. of Planning Officials. And we have no idea to what extent people in the Network care about what goes on in these traditional organizations of planning professionals. The article below, submitted by Network member Daniel Lauber (200 S. Blvd., Suite 1B, Evanston, IL), active in APA, reports some interesting progressive moves within APA/AICP and raises issues that the Planners Network might want to get involved in. We'd very much like any reactions to this, and whether you feel it is within or outside our purview.

OPPORTUNITY TO CHANGE APA: PROGRESSIVES RUN FOR APA & AICP BOARDS OF DIRECTORS

Progressive planners are challenging the candidates of the planning establishment in four of the six races for the APA and AICP boards of directors in the election to be held this March by mail ballot. While in the past one or two progressive planners have run for the board—and usually been elected—in any one year, this is the first time progressives have run in so many races. Victory this year and next could give progressive planners control of APA and actually place APA's substantial resources on the side of progressive planning.

Heading the list of candidates is *Lane Kendig*, director of the Lake County (IL) Dept. of Planning, Zoning, and Environmental Quality. Kendig is challenging the selections of APA's nominating committee in the race for President of APA. Author of the book *Performance Zoning*, Kendig risked his job to get a "liberal" housing plan adopted by his county board deep in the heart of Reagan Country. While Director of Planning for Bucks County (PA), Kendig wrote several inclusionary zoning ordinances to require inclusion of low- and moderate-income housing in new developments.

William Toner, environmental planning professor at Governors St. Univ. (IL) and well known planning author, is running for one of the at-large APA board seats. Toner is a leader in the effort to preserve agricultural land and is a member of the Planners Network.

David Brower is the only progressive nominated by the nominating committee (all the others are running by petition). Brower has been in the forefront of efforts to assure that growth management is not used for exclusionary purposes. An attorney and planner, Brower is currently Associate Director of The Center for Urban & Regional Studies at U.N.C., Chapel Hill.

The only progressive, and member of Planners Network, running for one of the three joint APA/AICP seats is *Kelly Carpenter*, Director of Plans and Program Implementation for Broward County, Florida. Formerly a consultant and municipal planner in New Mexico and Arizona, Kelly has served on the N.M. Women's Political Caucus, the Econ. Dev. Task Force of the Arizona Commn. on the Status of Women, and the board of directors of the Albuquerque Rape Crisis Center.

All four candidates agree that APA has got to stop lobbying for the same old inadequate federal programs, and should instead pursue more progressive programs at all levels of government. Chapters need assistance in lobbying their state legislatures, for that's where the action is today.

They stress that APA should put some money and muscle, if at all possible, to support planners who risk their jobs to perform sound and ethical planning despite political pressures to do otherwise. Progressive planners need this kind of support, and we'll have to get a progressive APA board to get it.

And it's time to put an end to AICP's efforts to make planning an exclusionary profession. Already AICP is spending money to promote AICP membership as a requirement for planning jobs.

It's time to replace the financially-draining pomp and circumstance that has overtaken APA, with substance: continuing education and workshops that explore new avenues of planning practice; publications that reflect both traditional and progressive planning viewpoints; services that meet members' needs.

And finally, it's time for APA to stand up to the reactionary Reagan Administration instead of surrendering. Mr. Reagan has made it clear he does not believe in planning. It seems ludicrous, and hardly productive, for APA not to challenge such programs as Urban Enterprise Zones, which like so much of the Reagan program, appears to be just another attempt to exempt big business from environmental, planning, and other public-interest protections.

We've got an opportunity to increase the number of progressives on the APA board to 7 (and next year to more than half the 21-member board). Let's not pass up this opportunity. When your APA ballot arrives, vote for Kendig, Toner, Brower, and Carpenter. It may be your last chance to vote for progressive planners—the APA board may soon close off the petition process and that's just about the only way nonestablishment planners can run.

SPEAKING OF A.P.A. . . . Are any of you planning to attend their annual convention in Dallas, May 5-12? The Network usually likes to put on some kind of "show" at these meetings—a formal panel or two, an information table, social event, etc. Let us know if you're thinking of going, so we can involve you in helping to organize things.

A RELATED COMMUNICATION FROM GREAT BRITAIN: Cliff Hague (Dept. of Town & Country Planning, Edinburgh College of Art, Lauriston Pl., Edinburgh EH3) writes in about the Radical Institute Group (RIG), which has been reported on in our Newsletter in the past. RIG formed in 1975 to act as a common front for progressives who sought reform within the Royal Town Planning Inst. (RTPI is the British analog to APA.) RIG successfully ran 5 candidates for 14 contested seats on the RTPI Council. They now have turned their energies more to the issue of planning itself in Britain rather than internal Institute affairs and have produced some discussion papers around the themes of the manifesto. Cliff will send us more details as things develop, and Networkers interested in learning more about this should contact him. If anyone would like a copy of their 1-page Manifesto, send us a self-addressed, stamped envelope.

My central interest is in developing a socialist housing program for the long haul. I am on the Board of Directors of the National Low Income Housing Coalition, and head CHAIN's housing policy committee. I have studied European housing programs, particularly those in Sweden. I also have worked with local governments on short-run progressive housing programs. Along with John Gilderbloom, I have written on the effects of rent control (a summary of our studies is available from me for \$2). In addition to housing, I have been involved in studying and designing growth-management programs which balance the need for social equity with those of intelligent resource management. Finally, I (along with Bob Heifitz) am developing a research network within the state of California, under the auspices of the California Project. This network will eventually match up progressives with research experience/skills, with labor, community and tenant groups, and progressive politicians who require research assistance. JUDY CHOMSKY, 1425 Walnut St., Philadelphia, PA 19102.

SHOSHANA CHURGIN, Works with Western Consortium for the Health Professions. I am a doctoral student in health planning at UC Berkeley School of Public Health, completing a dissertation on Plan Implementation in Health Systems Agencies. Fortunately, since these agencies have been withering away (unlike the State), my data collection is complete, and I am trying to make sense of the attempts I have been able to record. My interest in implementation of plans is paralleled by an interest in utilization of research, especially evaluation research, findings, in the interest of social change and social justice. While I have recently been involved primarily in the health field, my background includes work in manpower, anti-poverty, drug abuse, mental health and many other fields which have, at one point or another, seemed like a useful platform from which to address more generic issues of equity in the distribution of resources and the need to empower, through knowledge, skills and social support (also known as love), all the meek and not so meek people who just don't seem to have inherited much of the earth except its tragedies. Very recently, I have also become re-interested in the issues of nuclear war and nuclear energy, and am involved with people informally working against the implementation of the defense department's Civilian Military Contingency Hospital System in local hospitals in Alameda County.

I just completed Planning School at Columbia Univ., where my central focus was housing. Now, working for a housing agency, I am keenly aware of the grim tidings that are in store for housing programs under the present Reagan administration.

Having participated in the demonstration on Solidarity Day, I truly believe that this mass gathering was the first large crack in Reagan's illusory "mandate", and that all people involved in the Network should be encouraged to participate in future activities planned against this menacing administration.

RUSSEL FELDMAN, 139 Sumner St., Newton, MA 02159. 617/332-4800. I am the principal in a firm offering architectural and planning services with a specialization in the public sector of physical and economic development feasibility analysis. This involves me in revitalization of urban centers from both a project and policy perspective, and relating to residential, commercial, and industrial uses. I have consulted to the federal, state, and local levels; about 50% of my work is private sector related development feasibility and planning/design. I find that this work improves my skills and capabilities in the public sector and makes me better able to offer realistic advice to public officials.

STEVEN HERZBERG, 220 Erie St., Cambridge, MA 02139. 617/354-6740. I am working on organizing workshops and educational materials on housing programs and the existing Fair Housing network

in the Boston area. This material is intended for use by social service providers, both to inform them about these groups and programs, and to aid their clients. Unfortunately, "mobility" is already a dirty word in both inner city neighborhoods and suburban communities, which ought to make for very lively workshops.

I am most interested in the concept of community empowerment — decentralized planning and decision-making, a true community voice in decisions, and community based/community controlled/community owned economic development schemes. Focus of recent work: agricultural land retention efforts and alternative land institutions, such as land trusts. Also interested in institutional arrangements for rural planning and policy, and the implicit or explicit treatment of rural areas as part of national urban policies. Currently beginning a dissertation examining the issue of constituencies that (may) exist to support local rural land planning. Study area is rural Albany, N.Y. region. Will be delving into 1900-1945 history of institutional efforts, at all levels of government to accomplish rural land planning.

ROBERT JACOBSON, 460 W. 22nd St., New York, NY 10011. 212/924-6732. I am currently director of the Bronx Borough Office of the NYC Department of City Planning. This is my 16th year with the department. I am a strong believer that "planning" can be a very effective tool for neighborhood development and preservation and can help society best use all its scarce resources (economic & natural) for the good of all. Unfortunately, this is not a very popular belief in Reagan's "greed motivated" America.

ARTHUR JAMES III, 2121 7th St. #311, Berkeley, CA 94710. A graduate architectural student at UC-Berkeley, and a community designer for the Office of Community Development for the city of Oakland, CA. DENNIS KEATING, 432 Hudson St., Oakland, CA 94618. 415/428-2169. I've been teaching and doing considerable research in housing, community development and land use policy planning, program evaluation, and law. I've been a Lecturer at several S.F. Bay area universities. I've done several studies as a consultant to the National Housing Law Project (Berkeley), most recently writing an anti-displacement organizing guide with fellow PNs and a study of what rate of return regulated landlords are entitled to under rent control. I'm involved with tenant groups, typically involved in rent control struggles. I've worked with the NTU, the Berkeley and Santa Monica Rent Control boards, and I'm presently involved in the Oakland Tenant Union's 1982 rent control initiative campaign. I plan to continue to work on housing-related issues. I'm interested in exploring and writing about the potential and limits of the housing movement within the larger context of the struggle for economic justice. I recently wrote an article for *Ways & Means* outlining state and local strategies for progressives to respond to the Housing Crisis of the 1980s. Housing promises to be a key organizing issue for progressives and the PN should play a prominent role in this struggle. I also work with Shelterforce.

I'm doing "odd jobs" (e.g., working in a movement printing shop) to minimally support myself and free my time to do my own study, research and hopefully, writing. Long an activist in housing, community and women's struggles, I am currently on leave from U. Mass/Boston, where I taught community planning and founded and directed the Community Service Program (through which students satisfied their academic requirements while working with grass roots community organizations). I am attempting to study and write in the general area of how housing struggles fit into the broader struggle for major structural change in our political/economic system.

TOM LATA, 406 S. Malcolm, Chanute, KS 66720. 316/431-0080. I am a project planner with Southeast Kansas Regional Planning Commission. Current work involves the preparation of community profiles for 10 small towns in SE Kans. Specifically my work involves a fiscal analysis and public enterprise authorizations. Outside my workplace, I am interested in consumer cooperation development, particularly in an area devoid of cooperatives and buying clubs, southeast Kans. As a sidelight to my work here, it is interesting to note that many small towns have their own electric utilities, and I would be

interested in helping them maintain viability.

JACK LATTEMANN, 831 NE 57th St., Seattle, WA 98105. 206/522-1017. I'm a first-year student in urban planning, Dept. of Arch. & Urb. Planning, Univ. of Wash., with some background in transit advocacy; just commenced work with the local transit agency (Municipality of Metropolitan Seattle—Metro Transit). Interests: equitable financing of transportation modes, public land policy and transportation, transit system design to serve better multiple-centered metropolitan areas and off-peak uses; new public enterprises to serve capital needs of transit in U.S.; strategies for less intensive energy use in transportation (e.g., serious policy on bicycle networks and facilities). I'm interested in how community-controlled economic development can fit into all this. Prior to graduate school I worked three years at a large worker-managed/consumer owned food co-operative in Seattle.

DANIEL LAUBER, 200 South Blvd., Evanston, IL 60602. 312/328-8816. Planning consultant, free-lance writer. President of Planning/Communications. I'm currently writing a book on the inside story of the condominium conversion gambit, or some might call it, scam. Looking for opportunities to create limited-equity cooperatives, prepare municipal or state laws on condominium conversion, and to encourage creation of limited-equity cooperatives. Also active in zoning for family and group care homes for the developmentally disabled. Member, APA Board of Directors.

I am the only staff person of the Fenway CDC which has been involved as a sponsoring limited partner in a major mixed income housing development with a solar building and very complex financing. Major interest now is to bring as much of neighborhood housing under community control—or at least influence. I am also exploring how aggressive tenant organizing might work with the more traditional development focus of the CDC—perhaps to stimulate responsible property owners to relinquish their ownership to the community.

MARY VOGEL, PO Box 11142, Eugene, OR 97440. 503/683-1613 (W); 343-9997 (H). As a cooperative member-owner of Oregon Appropriate Technology, a renewal energy consulting firm, I'm spending much these these days trying to educate community decision-makers to take steps to "think globally and act locally" by seeing that their communities become not just consumers but producers of energy. I feel strongly that promoting the soft energy path does not mean promoting solar collectors on privatized single-family homes, rather it means promoting fundamental changes in our socio-economic-political system—including changes in the physical design of our dwellings and other buildings but, more fundamentally our system of ownership of these buildings and our overall land use and patterns. I've also developed a socialist feminist critique/strategy on the U.S. housing system based upon the work of PN members Mike Stone, Emily Achtenberg and Chester Hartman and early housing pioneers such as Edith Elmer Wood and Catherine Bauer which I'm available to speak on before interested groups. Finally, I'm organizing the Oregon members of the Planners Network. Please get in touch if you live in Oregon—or even if you're passing through.

FRED VOGLER, 844 Ramona Ave., Albany, CA 94706. (H): 415/527-8534; (W): 499-6268. Works for Housing & Community Development, Marin Co., Calif. I'm a novice planner who thanks the Fates for providing an interesting, well-paying job in a beautiful, stimulating, and convivial locale. Our office uses CDBG funds to assist project sponsors (non-profits, cities, etc.) in their efforts on behalf of low income people, the handicapped and minorities in a relatively progressive if affluent, white suburban county across the Golden Gate bridge from San Francisco. We've put together a wide variety of interesting housing projects: school conversions, rehabs, write-downs, etc., to meet diverse needs. Capital projects such as parks, infrastructure, child care, and barrier removal also receive substantial funding. Our sponsors often use CDBG money to leverage grants from the Bucks Foundation: \$20 million *each year* for "the people of Marin County." Don't you wish...? New endeavors include economic development projects for a minority-run CDC and a site plan for the last stretch of vacant land.

JAY VOGT, 6 Glade Ave., Jamaica Plain, MA 02130. 617/522-1567. Works for Suffolk Co. Cooperative Extension Service. I use "extension" education as a springboard to do consulting and training for local community organizations in the areas of management and energy education. Current interests include urban energy policy planning, citizen involvement training within the extension service, organizational development for community organizations, and the creation of a trade fair in Boston for non-profit organizations which provide services to other non-profits.

BRANDON WILSON, 891 Mass. Ave. #5, Cambridge, MA 02139. (H): 617/497-1209; (W): 625-6600. Have been working in Somerville CD office for 1½ yrs as a community planner. Enjoy the job immensely as it's a very challenging period in the city's evolution. Since Mayor Eugene Brune was elected almost 2 yrs ago our office, as well as most others in City Hall have been gradually reforming the way the city delivers services, re-develops its vacant or deteriorating properties, helps local businesses become more competitive and serves the needs of its largely low-moderate income residents. My primary responsibility for the past yr. has been securing new uses for six surplus school properties—four will be converted or redeveloped for market-rate housing & two will be used for Tufts Univ. & the Somerville Boys Club respectively. Fortunately Mayor was just re-elected & I hope progressive change will continue.

Planning, Ph.D. program; Director, Community and Labor Planning Associates. I am involved in several projects which are closely interrelated to my concern with achieving progressive change by linking the areas of consumption and production. (1) I was Program Coordinator for the major Western International Conference on Economic Dislocation which may result in a continuing planning/action coalition of labor, religious, community and academic groups. (2) I am researching labor and industrial restructuring in the Southern Calif. area from a class struggle/logic of capitalism perspective, resulting in papers written with John Friedman (for the World City Project) and with Edward Soja on a Los Angeles study. (3) I am advocating the development of the area of "community-labor planning," based in large part on praxis—with my entity, Community and Labor Planning Associates, which is working closely with the United Electrical Workers, the Coalition to Stop Plant Closings, and the Greater Los Angeles Labor-Community Coalition.

Planners Network/IPS
1901 Que Street, NW
Washington, DC 20009

A MEETING OF BAY AREA ARCHITECTS ACTIVE IN PROGRESSIVE POLITICAL ACTIVITY AT THE LOCAL LEVEL.

In January, 1982, approximately 20 Bay Area architects got together to discuss the need for and possibilities of establishing a Network, caucus, or loosely affiliated group of "left-leaning" architects. We are concerned about the shift of this country's resources by the right wing to ever fewer people, the crises of the Western industrial economies, and the impact of the above on the equitable distribution of housing, land development and other services provided by architects.

The following list is a brief summary of the ideas presented by groups for a direction and purpose. These will be discussed and defined at future meetings:

1. Help prepare legislation, advice or give endorsements to others preparing legislation at the city and state levels which is intended to expand opportunities for housing and other community facilities for low-, moderate- (and now even middle-) income households.

2. Create a pool of advisors available to neighborhood groups working to stop speculation, gentrification, wasteful demolitions, etc. or who are trying to instigate new construction as community-owned and managed enterprises.

3. Create a local newspaper for the group and/or subscribe to the Planners' Network Newsletter in order to communicate with architects of similar political viewpoints in other regions.

4. Form a pool of volunteer advisors available to the San Francisco and East Bay Community Design Centers.

5. Reach consensus about a general economic/social development model that will survive during this period of right-wing shift, which while adapting, will still aid low and moderate income households. This would become the guiding basis for all other proposed practical actions, lobbying efforts, etc.

6. Lobby to get members of the group on mayoral and council-appointed commissions dealing with environmental, housing, development issues, etc.

7. Advise candidates for local office and help shape their platforms regarding the protection and expansion of opportunities for housing and community facilities in low- and moderate-income neighborhoods.

8. Organize informal and formal get-togethers with students to encourage them to become involved in shaping the broader context that circumscribes their eventual practice in directions that will work towards equity.

9. Monitor and perhaps participate in the formation of the new AIA Political Action Committees as a possible arena to affect state legislation. For example, the Citizens' Party (Barry Commoner's organization) has proposed a California initiative for November '82 to tax the rich and corporations, creating a pool to finance new construction and rehab housing for low- and moderate-income families. While originating from the left, this could attract support from moderate and conservative professionals because it creates jobs for architects.

A second meeting was scheduled for Saturday, February 6th, and the next meeting is Saturday, Feb. 27. Anyone wishing further information should contact Michael Pyatok at (415) 451-7003 or James Vann at (415) 763-0142. Michael Pyatok's mailing address is 2760 Park Blvd., Oakland, CA 94606.

□ **NON-TRADITIONAL GRAD. PROGRAMS:** The Southern Neighborhoods Network is seeking information on non-traditional graduate programs that give credit for experiential learning while working for community organizations. They are seeking primarily campus-free types of curriculum that allow community organizers to continue their work on a part-time basis while doing reflection, reading, and writing. Those with relevant information should contact: Carter Garber, Southern Neighborhoods, 2025 I St. NW, Suite 901, Wash. DC 20006, 202/775-1160.

□ **EFFECTS OF REAGAN POLICIES ON BANKING INDUSTRY:** From Shabu Quereshi (2813 27 St. NW, Wash. DC 20008): "I am doing an article on the effect of Reagan administration policies toward the banking industry on urban communities—in regard to the attraction of new investment, job creation, housing, the works. If anyone has some information on the subject, or can recommend articles, I would appreciate hearing from you."

□ **"SELF-HELP IN AMERICA"** is the title of a special (Jan.-Feb. '82) issue of *Citizen Participation*. According to Network member Linda Cox (111 NW 26 St., Gainesville, FL 32607), it has a number of good articles on self-help community development, the prospects for economic self-help, and the role of professionals in organizing and bowing out of self-help groups. This issue is available free to community leaders. Write Stuart Langton, Editor, Lincoln Filene Ctr., Tufts U., Medford, MA 02155.

□ **THE GRASSROOTS FUNDRAISING JOURNAL** is a new publication, whose title is pretty self-explanatory. Publishers are Kim Klein and Lisa Honig, two experienced grass-roots fundraisers from the SF Bay Area. Six issues for \$12, from PO Box 14754, SF, CA 94114-0754.

□ **"URBAN ENTERPRISE ZONES: THE INAUSPICIOUS INTERNATIONAL EXPERIENCE"** is a short, op-ed type piece Network Steering Comm. member Bill Goldsmith has written, for any of you interested in this dimension of the Administration's hot new domestic idea (Bill is at the Dept. City & Reg. Planning, 106 W. Sibley, Cornell, Ithaca, NY 14853.)

□ **URBANISM PAST & PRESENT** (Dept. History, Univ. of Wisc., PO Box 413, Milwaukee, WI 53201) in its Summer/Fall 1981 issue has an exchange on the displacement issue: an article by Sammis White titled "Displacement: Is It The Real Enemy?", a critical commentary by Chester Hartman, and reply by White.

□ **THE REPORT OF THE CITIZEN'S HOUSING TASK FORCE** (San Francisco) was submitted in July. Several Network members were on the Task Force. Copies are available through John Molinari, President, SF Board of Supervisors, City Hall Room 235, SF, CA 94102.

□ **MASS PRODUCED HOUSING:** From Michael Noon (383 Elsie St., SF, CA 94110, 415/641-9154): "A number of us who are cross-trained in the building trades and planning are beginning to assemble a general proposal/plan for an experimental-stage project in the mass production of housing.

These preliminary models would be low cost, energy efficient, mass produced, modular, handicapped adaptable, well designed and relatively small in square footage of floor space.

The time seems quite overdue for the rationalization of the actual *production* of housing. In addition to lower operating (energy) costs the most obvious benefit would be vastly increased availability due to lowered costs.

Ideas, materials or time from Networkers would be appreciated. We would especially like to hear from European members. Thanks."

□ **COMMUNITY-LABOR ORGANIZING:** From Ann Markusen (UCLA School of Architecture & Planning, LA 90024, til 3/22; thereafter UC Berkeley, 94720): "I've recently completed a chapter on the regionwide community-labor organizing effort in Youngstown around steel plant closings, and am looking for people to read and comment on it. Also am collecting materials on the new regional lobbies—the Western Governors' Policy Office, Southern Growth Policies Board, and Northeast-Midwest Institute, conference of Northeastern Governors, and related Congressional caucus. Please help!"

□ **THE ORGANIZER** is a quarterly put out by the Inst. for Social Justice (1635 R St. NW, Wash. DC 20009). Subs are \$12/yr. It's the successor to *Just Economics*, put out by the Movement for Economic Justice and is linked to ACORN. Recent issues include "Organizing the Unorganized: The Origins of the Nonpartisan League," a case study of the struggle against a high voltage powerline in rural Minnesota; a study of ACORN's urban homesteading program in Philadelphia; "La Raza Unida: Lessons in Third Party Politics"; and an interview with Richard Cloward and Frances Piven. Looks like a really useful publication.

□ **A REQUEST FOR HELP FROM (A DIFFERENT) NETWORK** (1926 De la Vina, Santa Barbara, CA 93101): "We are a community organization/citizens lobby now entering our fifth year. We are writing because currently we are evaluating our city's redevelopment plans (land writedowns to large department stores and an offer of increased money for housing—we estimate about \$1.5 million annually by 85-86). We are most concerned with maximizing the dollars for housing and making the commitment irreversible, as irreversible as department stores.

We would like to be in touch with organizations and/or individuals in other parts of the country who have had experience with redevelopment and housing issues (i.e. protecting existing housing and leveraging more money for new housing). Any assistance would be greatly appreciated."

□ **URBAN ACTION** is an annual publication produced by Urban Studies students at San Francisco State University. "We are pleased to announce the publication of the third edition of our journal. Included are articles on the effect of political turmoil on the urban environment in Belfast; the San Francisco freeway revolts of the 1950's and 60's; an interview with Peter Hall highlighting his theory of urban enterprise zones; and much more. The journal is available for \$2.50 per copy; prepaid subscriptions are \$3.00 per copy, which includes postage. Please write to the Forum of Urban Studies Students (FUSS), HLL 382, S.F. State Univ., 1600 Holloway Ave., S.F., CA 94132."

□ **LOCAL ENERGY INITIATIVES: A SECOND LOOK—** A Survey of Cities and Counties, California 1981 (2nd ed.) is available (apparently for free) from the Office of Appropriate Technology, 1600 9th St., #330, Sacramento, CA 95814.

□ **U.S. PLANNING/ARCHITECTURE CONSULTING FIRMS IN S. AFRICA?** Many S. African housing developments and urban plans are designed with control and repression of the black population as central themes. Are US planning and architecture firms playing a role in S. Africa, as they did in Iran under the Shah? Network member Anthony Bernheim, himself an ex-patriate South African architect, would like to investigate this issue, and if indeed US firms are active there, mount a Network project to publicize this and bring it to the attention of the professional associations. Anyone with information, leads, or an interest in pursuing this should contact Anthony at 577 62 St., Oakland, CA 94609, 415/655-3578.

□ **NEWS INITIATIVES IN ENERGY LEGISLATION:** A *State by State Guide, 1979-1980*, by Julie Slavet, is a new 67-page publication of the Conf. on Alternative State and Local Policies. Available for \$5.95. Other related Conf. publications are: *Solarizing America: The Davis Experience* (160 pp., \$9.95); *State and Local Solar Energy Policy: Meeting Low Income Needs* (38 pp., \$4.95); *Community Energy Cooperatives: A Resource Guide* (250 pp., \$11.95); and *Innovative Energy Policies: A Briefing Book* (28 pp., \$3.95). The Conf. is at 2000 Florida Ave. NW, Wash. DC 20009.

□ **SEPTEMBER WHEAT** is a new film by Peter Krieg about US wheat. "Following the example of one food commodity, the film searches for the causes of hunger in a time of abundance, asking for the motives that turn wheat into a commodity and a weapon, people into victims of surplus, nature into an enemy." It was shown at IPS, and although we weren't able to make time to see it, it got very good reviews. 96 min., color; information about it from ZDF German Television, 1077 31 St. NW, Wash., DC.

□ **THE COMMUNITY REHABILITATION TRAINING CENTER** (4340 East-West Highway, #900, Bethesda, MD 20814, 301/654-9300) is offering practical training in various aspects of housing rehab, through 3-day sessions being held between now and late April in Jacksonville, Spokane, San Antonio, DC, New Orleans, Cincinnati, Dallas, Louisville, LA, Baltimore and Oklahoma City. Anyone familiar with the quality of their work should write in and give us a "review."

□ **THE CENTER FOR ECOLOGICAL TECHNOLOGY** (74 North St., Pittsfield, MA 01201) has two slide shows: "Passive Solar Retrofits in the Northeast" and "The Story of a Passive Solar Retrofit: TAP (Thermosiphoning Air Panel)", available for \$115 and \$50, respectively.

□ **TUFTS PROJECT ON GLOBAL ENVIRONMENTAL STRATEGIES.** Readers of the Newsletter may be interested in a pilot course given during the spring term of 1981 at Tufts Univ. as a first effort to disseminate the World Conservation Strategy through educational channels. The Strategy, a key global document circulated among governments and non-governmental environmental agencies throughout the world, sets a new focus for the environmental movement on the concept of "conservation for sustainable development."

In 14 evening 3 hour sessions the course brought to Tufts leading world environmentalists in a dialogue with local

counterparts with a participant body of 20 graduate students and 20 practitioners from the Boston region. Entitled "Global Environmental Strategies in the New England Context," the course experience, its organization and format has been issued in a 24-page booklet as guidelines for others wishing to undertake such a project. It is available free from Network member Prof. Hermann H. Field (organizer and director of the project), Dept. of Urban & Environmental Policy, Tufts Univ., Medford, MA 02155.

□ *MOUNTAIN LIFE AND WORK: The Magazine of the Appalachian South* is something Networkers might want to check out. It's put out monthly by the Council of Southern Mountains (Drawer N, Clintwood, VA 24228), and subs are \$5 a year. The September issue, for example, is 48 pages and has good articles on workplace, land and community issues, an events calendar, two photo essays, book notes, and other useful items. In addition to publishing this magazine, CSM operates a Community Unions Program and a Mine Safety and Health Program.

□ *CALIFORNIA NEIGHBORHOODS* is the newsletter of the organization of the same name, "a state-wide network of neighborhood organizations and friends from private and governmental sectors interested in sharing information, expertise and strategies for preserving and strengthening neighborhoods." Membership is \$10/year, and their address is 3844 Mission Blvd., San Diego, CA 92109.

□ *RAIN: JOURNAL OF APPROPRIATE TECHNOLOGY* is also something Planners Network people should subscribe to. They also have a publication series. Subs are \$15/yr. (10 issues) from 2270 NW Irving, Portland, OR 97210, or a sample issue is \$1.

□ *CITY LIMITS* should be mentioned too, while we're on the subject of useful publications. It's "the news magazine of NYC's low and moderate income housing and neighborhoods, now in its sixth year of publication. It has covered such issues as the sale of city-owned buildings to tenants or landlords, the uphill struggle of the Natl. Consumer Coop Bank, saving through fuel-buying plans, and the battle for open space." Subs are \$9/yr. (10 issues), to 424 W. 33 St., NYC 10001.

□ *THE GEORGIA A.M.P. [AGRICUTURAL MARKETING PROJECT] NEWS* is something Network member Chuck Rosenberger sent in, for those of you who might be interested in receiving it. The Project deals with food fairs, bulk marketing for local small farmers, non-profit coops, and related efforts. Their address is 321 W. Hill St., Decatur, GA 30030, 404/377-5638.

□ *THE COUNCIL OF STATE PLANNING AGENCIES* (400 N. Capitol, Rm. 291, Wash., DC 20001) has put together a really good publication series, among which are:

Pension Funds and Economic Renewal, by Lawrence Litvak

America in Ruins: Beyond the Public Works Pork Barrel, by Pat Choate and Susan Walter

The Working Poor: Towards a State Agenda, by David Gordon

Democratizing the Development Process, by Neal Peirce, Jerry Hagstrom and Carol Steinbach

Venture Capital and Urban Development, by Network member Michael Kieschnick

Development Politics: Public Development and the Public Interest, by Network members Robert Hollister and Tunney Lee.

Write them for their catalogue.

□ *THE CAMPAIGN TO OPPOSE BANK LOANS TO SOUTH AFRICA (COBSA)* was formed in 1977 to link the efforts of national and local anti-apartheid groups, churches and unions, campuses and community groups in pressuring U.S. banks to end all loans, direct and indirect, to the South African Government, its agencies and parastatals, and corporations doing business there. It currently has active local campaigns in nine states and the District of Columbia and an extensive network of contacts in many other states.

Bank campaign activities by COBSA affiliates and its national staff have contributed to withdrawal of over \$325 million in deposits from Canadian and U.S. banks lending to South Africa. Local affiliates in the past year:

- forced the first public hearing in Region 5 (mid-atlantic) before the U.S. Comptroller of the Currency under the Community Reinvestment Act protesting a bank's inadequate services to minorities and the poor and its lending to South Africa and Chile;

- worked in Oregon, California, Illinois, Massachusetts, and elsewhere to support legislation withdrawing state funds and pension monies from banks lending to South Africa (bills were passed in Michigan and Nebraska);

- participated in local coalitions targeting bank policies toward minorities and women, red-lining and anti-union practices, and financing of nuclear energy.

In 1982, COBSA will be concentrating on:

- developing new campaigns and contacts at the local level, in particular among regions of the country with little prior involvement (South/Southwest/part of Midwest) and among groups targeting the role of banks in union-busting, red-lining, poor affirmative action, etc.

- mobilizing groups and individuals for a *National Day of Action on the Banks* in November, 1982 (to involve individual and institutional withdrawals of deposits from targeted banks, picketing, leafletting, etc.)—to climax the U.N. Int. Year for International Sanctions Against South Africa.

- producing a manual on researching and organizing to end loans to South Africa.

Further information from Carole Collins, National Coordinator, COBSA, 1901 Que St. NW, Wash., DC 20009, 202/234-9382.

□ *FOURTH WORLD STUDIES IN PLANNING* is a series of working papers on the problems of indigenous societies, which member David Stea wants to bring to everyone's attention. They're published by the UCLA Grad. School of Architecture & Planning (LA, CA 90024). Relatedly, Stea also mentions the *ARC Newsletter*, published by the Anthropology Resource Center, 59 Temple Pl., #333, Boston, MA 02111, 617/426-9286.

□ *MEDIA NETWORK* is a new newsletter put out by the organization of the same name. It's designed to "strengthen the budding movement of 'media activism' by bringing together the scattered groups and individuals that often work in isolation from each other: community groups that are making their own videotapes; labor unions that are monitoring how working people are portrayed on television; activist groups that are organizing programs to bring people together to view and discuss films on history, culture or social and political issues; and others who seek the potential of media to inform, empower and inspire." Sample copy of the newsletter \$1, free with membership (\$15/yr.); 208 W. 13 St., NYC 10011, 212/620-0877.

□ **HOUSING SONGS:** Mike Rawson of the Calif. Housing & Inf. Network has a "semi-commitment" from Folkways for a record to produce such an album. Know of any? Want to write one? Contact him at 260 38th St., Oakland, CA 94601, 415/532-6400.

□ **TUFTS UNIV. HAS A NEW GRAD. PROGRAM IN PUBLIC POLICY AND CITIZEN PARTICIPATION.** Several Network members (Rachel Bratt, Ken Geiser, Rob Hollister, Peter Dreier) are on the core and adjunct faculty. Information and applications from Prof. Graham Wootton, Tufts, Medford, MA 02155, 617/628-5000, x 350.

□ **THE CENTER FOR COMMUNITY ECONOMIC DEVELOPMENT** is a 12-year-old organization that has conducted research projects aimed at improving this kind of development strategy and has assembled a collection of materials on the subject; they also have published a series of monographs, case-studies and how-to-do-it pamphlets and training manuals. Their publications list (available for \$2) and further information are available from Ramon Estrada, Exec. Dir. CCED, 1320 19 St. NW, Wash., DC 20036, 202/659-3986.

□ **THE DEMOCRACY PROJECT** is a new non-profit "action institute" begun by Mark Green, former head of the Nader Congresswatch Project and NYC Congressional candidate. It "critiques prevailing policies, and develops progressive alternatives for the next generation of leaders." Network Steering Comm. member Derek Shearer is one of their Coordinators, and one of his projects was a Jan. 13 conference at the Dirksen Senate Office Bldg. on "Beyond Reaganomics: What Kind of 'Industrial Policy'?" Beyond general interest to Networkers is a specific program of small honoraria to scholars, authors, students and activists to do research, studies and articles. To apply, send a two-page outline, explaining goals, themes, methodology and schedule, to Democracy Project, Attn: Proposals, 595 Madison Ave., Suite 1303, NYC 10022, 212/753-5000. Their DC office is 215 Penn. Ave. SE, Wash., DC 20003, 202/543-5858.

□ **COMMUNITY ENERGY PLANNING** is a project of Network member Dennis Lamoureux and his Lamoureux Foundation (196 Morton Ave., Albany, NY 12202, 518/472-9760. "The project concerns COMMUNITY ENERGY PLANNING and stems from the efforts of Jim Benson at the Inst. for Ecological Policy. We are presently in the midst of an Albany County Energy Study and will soon be promoting community input through a program of energy study circles. We have developed a data base of energy use for 1980 in Albany County; our task now is to ascertain our local potential for conservation and renewables.

At the same time, I am working with the Sierra Club on their Northeast Region Community Energy Campaign which is being coordinated out of this same building. It is hoped that this dual effort at both the local and regional level will promote a lively exchange of ideas and opportunity to test various means of promoting community energy dialogue."

□ **WORKING SMARTER: AN APPROACH TO IMPROVING THE QUALITY OF WORKING LIFE** is a pamphlet put out by City of SF and the SF Central Labor Council Public Employees Local Unions. It's part of the SF Work Improvement Project, which listed several jobs in Newsletter #31. David Olsen, the Project's Director (who began the New School for Democratic Management) notes, "It is one of the very few decentralized, democratic Quality of Work Life programs in existence in which committees have real decisionmaking power." A similar program has just been

initiated in Berkeley. More information (and copies of the pamphlet) from David at 42 Winfield St., SF 94110, 415/641-8444.

□ **FROM MATTHEW AND KIM EDEL:** "We will be on the West Coast this summer (and just possibly next fall) and are interested in setting up speaking dates, or in meeting with interested groups. Matt is working on theory in urban political economy. Kim is presently editorial board coordinator of the *Review of Radical Political Economics*. They are particularly interested in talking about their joint project on Childbearing Age and Women's Employment. (They recently gave a paper on "Childbearing after Thirty—Economic Payoffs vs. Social Pressures"). Up to June 20, they may be reached at Urban Studies Dept., Queens College, Flushing, NY 11367, 212/520-7510.

□ **SWEDEN ANYONE?** New Network member Elly Berg says she will be happy to meet any Network people coming her way and can probably arrange lectures for them at various universities. Her address is Barrstigen 11, 161 35 Bromma, Sweden.

□ **FROM STEERING COMM. MEMBER MITT REGAN:** "I've received about 30 requests for information on and analysis of the Kemp-Garcia Enterprise Zone bill. I've sent out or am in the process of sending out this material. Those of you who've received the packet should also have a copy of testimony I prepared for the D.C. City Council Committee on Economic Development, regarding an Enterprise Zone bill proposed for the District of Columbia. Those who'd like the background material on the national bill and/or the testimony on the D.C. bill can write me at 1615 Que Street, N.W. #1207, Washington, D.C. 20009.

I've begun law school at Georgetown University, and am clerking with a law firm specializing in banking and financial institutions law. I'd appreciate any suggestions on radical analyses of this sector of the economy, particularly concerning the extensive restructuring occurring in response to deregulation, international economic pressures, and the entry of traditionally nonfinancial firms into the field.

For starters, I have a suggestion of my own: *Banking and Finance: the Hidden Cost*, published by Corporate Data Exchange, 198 Broadway, Room 707, New York, NY 10038. This is a good source of material on, as the handbook says, "(T)he essential characteristics of the eight major financial industries in the United States: where they get their resources, how they use them, and what measure of power is associated with each industry."

□ **THE LOW INCOME COOP HOUSING NETWORK** is worth another mention in these pages. It was set up this past summer at the CCA Inst. in Northfield, Minn., with representatives from 16 states and Canada, to foster nonspeculative, limited equity coops as a real means for poor people to cope with the hard times ahead. It is an independent, grassroots entity, to communicate among its members, lobby politically and develop a legislative agenda. Contact them at Common Space, 2529 Nicollet Ave., Minneapolis, 55404, 612/872-0550.

□ **A PROPOSAL TO THE CITY OF MINNEAPOLIS FOR A COMMITMENT TO AFFORDABLE HOUSING** is a good model document that Common Space, as part of a consortium of community-based, non-profit housing groups, prepared and submitted. Available from them at the above address.

□ *SOCIAL POLICY* magazine is looking for articles from Networkers. March 1 is the deadline for next issue. Contact their new co-editor, Marvin Surkin, Social Policy, 33 W. 42 St., #1212, NYC 10036.

□ **ACORN'S C.D. AND HOMESTEADING CAMPAIGNS:** ACORN (Assn. of Comm. Orgs. for Reform Now) has two campaigns Network members should know about:

1) A Community Development ordinance recently passed by the Albuquerque City Council after a six-week ACORN campaign designed to put into local law CD program standards and protections enacted federally in the latter part of the Carter Administration, which the Reagan Administration has gutted. It requires the city to continue to prepare a detailed annual CD plan, target at least 75% of program benefits to low- and moderate-income people, and spend no more than 10% of program funds on administration, and maintain an extensive set of citizen participation mechanisms. Campaigns to enact similar ordinances are underway in Boston, Pittsburgh, Jersey City, Miami, Little Rock, Austin and Phoenix.

2) Use of squatting in abandoned houses in Philadelphia, in an attempt to reform that city's homesteading program. The campaign produced an income eligibility ceiling, a three-year grace period to achieve code standards, and a streamlined sheriff's sale process that had reduced the average disposition time from two years to nine months. They now are taking similar campaigns to Detroit, St. Louis, Boston, Pittsburgh and Atlanta.

Further information on both campaigns (and a copy of the Albuquerque ordinance) from Seth Borgos, Research Director, and Madeleine Adamson, National Representative, ACORN, 1638 R St. NW, Wash. DC 20009, 202/462-4200.

□ **DIVESTITURE FROM SOUTH AFRICA: A PRUDENT APPROACH FOR PENSION FUNDS**, by Lawrence Litvak, Julia Estrella and Kathleen McTigue, is a new publication of the Conf. on Alternative St. and Local Policies. 60 pp., \$5.95 (+10% postage), to the Conf., 2000 Florida Ave. NW, Wash. DC 20009.

□ **RATIONAL REINDUSTRIALIZATION: AN ECONOMIC DEVELOPMENT AGENDA FOR DETROIT**, by Dan Luria and Jack Russell is "an agenda for the creation of 100,000 secure, well-paid industrial jobs in Detroit. It consists of the phased implementation of a program that includes converting idle, mainly automotive productive capacity to the manufacture of energy hardware for the oil, gas and coal gasification industries. Because private capital cannot be counted on to assume the risks associated with such a conversion program, Rational Reindustrialization will be at least partially based on public/worker enterprises." Luria is with the Research Dept. at UAW, and Russell is on the staff of Detroit City Councillor Ken Cockrel. The 63-page publication is available for \$3 (checks payable to authors) from Widgetstripper Press, c/o Russell, 19660 Stratford, Detroit 48221.

□ **THE LOCAL PROPERTY TAX:** From Dorothy Dean, (County Supervisor, 13th Dist., Courthouse Rm. 201, 901 N. 9th St., Milwaukee 53233, 414-278-4233, 961-7315): "The situation here is not so very different from the situation in a lot of other communities across the country. For a variety of reasons beyond our control, we find ourselves unable to continue financing some of the services that the county has

historically provided in order to fund services that are mandated by the State or Federal Government. The 1982 property tax budget falls just a few dollars short of the property tax levy limit set by State Constitution. The situation will not improve in the near future (that means until probably the late 1980's).

I will be chairing a local task force composed of four members of the County Board and four citizens. The purpose of the task force is to look at the local property tax. We actually will be doing two separate studies at the same time. One is to look at alternatives to the local property tax, either to totally replace the property tax or to partially supplement the property tax. The other area we will be looking at is the services that are funded currently with local property taxes. We will be looking at the appropriateness of paying for certain services with property taxes as well as the level of service provided for the tax dollar.

I would appreciate any research material that members of the Planners' Network might have available to them. I am especially interested in information about local payroll or income taxes such as the municipal payroll tax that the State of Michigan allows its cities to levy. There are a number of questions which are probably best answered outside the political arena. Those questions include: Does a local income sales, etc. tax discourage people from moving into an area? Does a special local tax encourage people to leave the area? Does a local income sales, etc. tax discourage businesses from moving into an area? Does a special local tax encourage businesses to leave the area?

The County Board does not have the authority to change state tax laws. We are undertaking this study now so that we can make recommendations to the State Legislature. Anyone interested in seeing the materials that I have collected can contact me. I would urge interested individuals, especially those who might have research data that I can use, to contact me as soon as possible. I want to have as much background material as possible available before the task force actually begins to meet.

I am also interested in historical perspectives on the property tax to set the property tax in some kind of an historical context. I have plenty of material available on the regressivity/progressivity of the property tax. Interested individuals can contact me.

□ **GLOBAL HOUSING PROSPECTS: THE RESOURCE CONSTRAINTS**, by Bruce Stokes, is a Worldwatch Paper (64 pp.), available for \$2 from the Worldwatch Inst., 1776 Mass. Ave. NW, Wash. 20036.

TRANET (the Transnational Network for Appropriate/Alternative Technologies) has a newsletter much like ours in format and style. It comes out quarterly and is available for \$15/yr. from PO Box 567, Rangely, ME 04970. Their Winter 1981-82 issue contains a useful directory of women's futurist, health and technology organizations.

□ **THE TRUST FOR PUBLIC LAND** has a Regional Technical Assistance Program, to equip community groups with a range of land management skills, enabling them to pursue a variety of land reclamation and neighborhood revitalization projects. Workshops and ongoing technical assistance are available. They also have available such publications as *A Citizens' Guide to Maintaining Neighborhood Places*, and *Citizen's Action Manual: A Guide to Recycling Vacant Property in Your Neighborhood* (both look to be free). Further information from David Prowler, TPL, 82 2nd St., SF CA 94105, 415/495-4014.

OFFICE VOLUNTEERS STILL NEEDED!! We still need folks in the DC area with a few regular or sporadic hours to spend on various office tasks having to do with list maintenance, mailings, collating roster information, and other exciting tasks. Give us a ring if you can add your name to the people we can call on periodically for help. We're grateful to Mara Heiman, Judy Kossy, Jeff Shavelson, Linda Hollis, and Andree Tremoulet for recent help they've given at the office and with the Newsletter. See—your name in print, seen by nearly 1500 planners across the country, for just a few hours work.

LET PEOPLE KNOW ABOUT PLANNERS NETWORK! Probably the best means of outreach we have in bringing people into the Network who ought to be there is when you yourselves inform and recruit people you work with and meet. We have a good two-page introductory sheet (write us for a copy or copies), and you can show back newsletters to people. Or just sit down and make a list of people you think ought to be in the Network and we'll send them the information sheet.

A REMINDER ON ADDRESS CHANGES: PLEASE include your old zip code—it makes life immeasurably easier, since our address cards are in zip code order.

IF YOU DID NOT RECEIVE THE LAST NEWSLETTER (they are consecutively numbered and are roughly bimonthly), which is a real possibility with third-class bulk mailings, just let us know and we'll send a replacement.

DEADLINE FOR RECEIVING MATERIALS FOR NEWSLETTER #33 WILL BE APRIL 12 (your Chair's birthday, in case you want to send a contribution to the Network in honor thereof.)

TO THOSE OF YOU WHO HAVE INDICATED ON THEIR ROSTER FORMS INTEREST IN PLUGGING INTO VARIOUS NETWORK PROJECTS: We've been sending your names on to project coordinators, and many of you doubtless have already been contacted (others will be shortly). Getting all our projects firmly underway is of course the major task of the Network in its organizational incarnation—please bear with us if all the mechanics are a bit slow in shaping up.

WRONG CREDIT: For reasons too complex to go into in a short space, the cartoon we used in Newsletter #31 was not properly credited. Tony Auth of the *Philadelphia Inquirer* should have been the credit line.

#31 RETURNS: We appreciate the time many of you take each issue to look through this list of lost souls; the updated addresses we get from you, or the messages you give them to get back in touch with us, are much appreciated.

With this issue, Network member Prentice Bowsher of DC will be taking over prime responsibility for editing and producing the Newsletter, as well as organizing volunteers to help with mailing list maintenance. This will enable Chester Hartman to devote his Network time more to raising some financial support for projects, doing some outreach and publicity, and assisting in getting our projects moving.
